

# SCHOOL DEVELOPMENT PLAN

2026 – 2027

1

To strengthen the consistency and quality of teaching and learning in maths, ensuring full fidelity to the NCETM approach and a clear focus on progression, fluency and reasoning.

2

To strengthen the Catholic Life and Religious Education provision across the school by deepening parish links, enhancing chaplaincy, improving the quality of Prayer and Liturgy to ensure all pupils and staff actively live out the school's mission.

3

We will raise the profile of reading across the school to foster a genuine love of books and develop positive reading habits for all pupils.

4

– To improve children's oracy skills in Reception by developing vocabulary, sentence structure and confidence in speaking and listening through high-quality interactions and structured opportunities for talk.
