

SEN Information Report 2021-2022

Special Educational Needs Coordinator: Miss Kirsty Palmer Contact: admin@spst.liverpool.sch.uk

Special Educational Needs Governor: Mrs. P. Gillon

Our Local Offer Contribution: <https://liverpool.gov.uk/schools-and-learning/special-educational-needs/send-local-offer>

Our approach to additional needs: Consistent quality first teaching and additional interventions are defined through our person-centred planning approach across the school, contributing to our provision management arrangements. These processes help us to regularly review and record what we offer all children or young people in our care and what we offer additionally. These discussions also serve to embed our high expectations amongst staff about Quality First Teaching and the application of an adapted and personalised approach to teaching and learning. We make it a point to discuss aspirations with all our learners and families. This is a whole-school approach and this report will promote how we underpin this practice across our classrooms, pastoral care and support arrangements.

At St. Paul & St Timothy's Catholics Infant School we welcome children with a range of Special Educational Needs. We support these children in many different ways to ensure that they can access our broad and balanced curriculum. They may have additional needs in one or more areas as set out in the Code of Practice 2014:

Communication and interaction

Children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules

of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives. Children and young people with an Autism Spectrum Disorder are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication, social interaction and imagination, which can impact on how they relate to others.

Cognition and learning

Support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate adaptations. Learning difficulties cover a wide range of needs, including specific learning difficulties (SPLD) moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.

Social, emotional and mental health

Children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying dysregulated behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or physical symptoms that are medically unexplained. Other children and young people may have tendencies indicative of a disorder such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder

Sensory and/or physical

Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning. Children and young people with an MSI have a combination of vision and hearing difficulties, this can make it more difficult for them to access the curriculum or study programme than for those with a single sensory impairment. Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.

Examples of additional provision and support for each area of need.

We strive to respond to the varying needs of all children in our school and access support for any child on a needs led basis.
--	---	---	--

Underpinning ALL our provision in school is the **graduated approach**.

Assess

When assessing we will carry out an analysis of the child’s needs which draws upon the teacher’s assessments and experiences of the child, their previous progress and attainment. This is put in the context of the child’s age and stage of development as compared to the school’s view and the national view of expected pupil progress, attainment, behaviour, physical, emotional and social development. The child’s own views are sought as are those of the child’s parents/carers and any involved external support services. We liaise fully with any outside agencies conducting assessments. Any concerns of parents/carers are actively listened to, recorded and inform any support that is put in place. Assessments are reviewed at least termly by the class teacher.

Plan

The class teacher and the SENCO agree, in consultation with the parent/carer the provision that is additional to and different from most learners. Adjustments, interventions and support put in place. They also agree the expected impact on progress (outcomes), physical, social, emotional development or behaviour. Children with greater need may well have outside agency involvement. Planning will include strategies, resources and/or specialist assessments. The plan for outside agency involvement will stipulate what is required and who will be involved with the child and their family.

Do

The school SENCO, Kirsty Palmer, supports the class teacher and other staff by advising on the effective implementation of support and further assessments. The child's class teacher remains responsible for their teaching and learning. Where support or intervention requires the child to work away from their teacher, either in a small group or with a high level of adult support, the teacher is still responsible for planning and overseeing the child's work. The class teacher will work in close partnership with Learning Support Assistants, Educational Support Assistants or specialist staff to plan and assess the impact of support. Where possible and when appropriate, learning opportunities should be linked to the curriculum being followed by the rest of the class. Our Pastoral team may also be involved in addressing other factors which impact on children's learning e.g. emotional regulation, social and emotional mental health needs etc.

Review

Reviews will usually be completed with the class teacher and the child's parents/carers where One Page Plans or Play Plans are agreed and updated. The impact and quality of support is evaluated as part of the review process. The views of parents/carers and the child are used to ensure coproduction of targets. The outcomes of all reviews are shared with the SENCO. Any concerns raised throughout the process are also shared with the SENCO, this may result in further assessment by the SENCO, through a referral process, discussion at Consortia or additional/different resources incorporated into the provision.

Children with an Education, Health and Care Plan (EHCP) will have their needs and short term targets reviewed on a termly basis with their parents/carers. The EHC Plan will be reviewed at least annually and monitored by the Local Authority.

The SENCO or SLT will support the reviews of children with more complex needs. Other professionals working with the child may also be invited to review meetings. These reviews will be recorded as a Team Around the Child (TAC) meeting or an Early Help Assessment Tool (EHAT) may be used.

Having consulted with children, young people and their parents/carers, all additional provision (internal or external) is based on an agreed outcomes approach and these are discussed with the professionals that offer the support to your child/young person and hold both our

SEN Data for 2021-22	SEN support	EHCP	Combined SEN support /EHCP
St Paul & St Timothy's	13.3 %	1.3% This figure includes only finalised EHCP plans not those at assessment or in draft form.	14.6%
National Average	12.6%	4.0%	16.6%

internal/external providers and ourselves to account.

In the context of our school 48 children received SEN support, 5 had their needs captured through an Education, Health & Care Plan.

The SEND register is a working document and it is reviewed on an on-going basis. These figures are subject to change depending on mid-year transfers and the individual needs of children as they arise.

We have internal processes for ensuring and monitoring quality of provision and assessment of need. These include training opportunities for all staff, monitoring adapted planning, lesson/activity observations, book looks, learning walks, Provision Mapping, pupil progress meetings, SEND consultation meetings, solution circles, pupil voice, in-depth data analysis and One page/ Play Plans.

Co-producing with children, young people and their parents

Involving parents and learners in the dialogue is central to our approach and we do this through:

Action/Event	Who's involved	Frequency
We hold Person Centred Reviews.	SENCO, Teacher who supports children with SEN, Class teachers, Parents/Carers and the child.	Each term or as required.
Our open-door policy	All SLT, SENCO, Learning Mentor, all Class teachers.	We urge parents/carers to please let us know as soon as possible if they need support or they have any concerns about their child.
Provision of Parenting Course/Sleep sessions. Support through telephone and virtually	Learning Mentor	A series of sessions are provided for both courses at least once in an academic year.
Coffee Morning for parents/carers as an introduction to our Learning Mentor. Learning Mentor and key staff introduced through Video	Learning Mentor, SENCO, HT	At least once in the academic year.
Provision of Induction meeting for new parents/carers and their child Virtual induction meeting for parents with key staff including SENCO-Video available on school website	SENCO available to share information related to any additional needs of their child. This will ensure a smooth transition into our school and help to enhance provision for the individual child.	Summer term before admission into school.

Visits to/conversations with nurseries.	Child, SENCO, EYFS Lead, SENCO/Head of nursery, key worker.	Summer term.
Drop in sessions with SENCO and EP for parents/carers with concerns or of children with identified needs. Via virtual meetings	Parents/carers, SENCO and EP.	Summer term.
Provision of a further induction meeting for child and parents/carers to meet their class teacher, LSA and visit their classroom. Introduction videos made and shared with new families. Transition books made and shared virtually with families and Nursery settings.	Class teacher, LSA, SENCO and Learning Mentor available at this session.	Summer term before admission into school.
Provision of bespoke transition programmes for children with additional needs who are transferring from nurseries across the city.	Parents/carers, child, Learning mentor, SENCO, Class teacher, LSA, office staff.	Summer term.
Pupil Profile Meetings.	Parents/carers, child, class teacher. SENCO available if needed.	1 st 2 weeks of the Autumn Term the child starts school.
Early reading, phonics and maths workshops for parents/carers.	SENCO and Maths/ Phonics Lead	Summer term and Autumn term.
Drop in coffee mornings for parents/carers of children with SEN. Virtual support shared with parents through twitter, See-Saw, Parent apps and through our website	SENCO, Purple Circle, ADHD Foundation and SENISS.	Ongoing.
Provision of bespoke transition programmes for children with additional needs who are transferring to Key Stage 2.	Parents/carers/child. SENCO of Infants School, SENCO of Junior School, Learning Mentor of Infant School, HT's of both schools if necessary.	Spring/Summer term before Admission into Junior school or Key Stage 2 setting.

Use of Parent Questionnaires to capture views and opinions that serve to 'feed' into the School Development Plan.	Produced by HT & SLT. Sent out to Parents/Carers	Annually each spring term.
Provision of 'signer' to support Parents who are deaf to facilitate curriculum meetings, Parents evenings, Transition meetings, Performances, Assemblies etc.	SENCO arranges with Parents/Class teacher.	On- going throughout the School year.
Provision of Translator to attend meetings, Parents evenings etc for families with EAL.	SENCO or EAL coordinator arranges with parents/class teacher.	On- going throughout the School year.
Pupil Progress Meetings	Parents/carers, class teacher, Learning Mentor, intervention support staff available.	3 times a year.
End of year report with feedback slip.	Parents/carers and class teacher.	Summer term.
See-Saw platform to communicate and share information between home & school	Parents/carers, class teachers and support staff	On- going through the school year

Staff development and areas of expertise:

We are committed to developing the ongoing expertise of our staff. Please see below for the current expertise in our school:

We are committed to developing the on-going expertise of our staff. We have current expertise in our school related to Dyslexia Friendly teaching. We provide visual support systems for all children that serves to help children on the Autistic Spectrum or those children that present with social communication needs. Children take part in Oracy sessions in school that help all children to use talk in their learning and express their ideas and opinions. All staff were part of the work to achieve the ATSSA award.

Staff meetings over the past year around SEND have covered Attachment and Trauma, adaptations of teaching and curriculum and understanding behaviour as communication.

Whole school INSET with Jenny Knock as part of our journey into become a Trauma and Attachment Sensitive School. Allowing us time to think as a whole staff about our behaviour policies and strategy. We completed the Bronze Attachment and Trauma Sensitive School award this year.

New staff completed a half day training 'Emotion Coaching', working with our Educational Psychology service to think about meeting the needs of all our children especially those with SEMH needs.

We provide daily phonics through our Monster Phonics scheme. This includes an interactive ICT resource and a library of reading materials. We also provide booster sessions as an intervention for children who benefit from extra small group teaching.

Some teaching and support staff have been trained on intervention programmes linked to Reading Recovery – Read, Write, A to Z and Better Reading Partnerships (BRP). Some staff have been trained to use Nessy, Talk Boost and Toe by Toe interventions.

Some staff have completed training in 'Becoming First Class at Number' and 'First Class at Number' One of our middle leaders is using this intervention as research for his NQPSL

All teaching staff completed training from our EP service to develop skills in Blank Level Questioning.

Our SENCO has completed 'Circles and Threads' training from Lisa Cherry, this considers trauma informed record keeping and the language we use when talking and writing about children. This has been a focus for all staff over the year in staff meetings.

Our SENCO attends the School Improvement SEN Briefings in November and March and cascades information to staff as required.

Our SENCO has completed the National Award for Special Educational Needs Coordination.

We belong to SEN Consortia Liverpool East 2. Our SENCO attends all meetings with the HT with other members of staff as required

This year we supported new parents alongside our EP service with 'Getting Ready for Reception Family Workshops.'

Staff deployment:

Considerable thought, planning and preparation goes into deploying staff to ensure children achieve the best outcomes. This enables them to gain independence and be prepared for their next stage of education. We believe if children are provided with a welcoming, safe and happy learning environment with relationships at the heart, supported by high quality, professional staff, they will thrive and grow into confident and resilient adults.

This year all classes had the benefit of Learning Support Assistants working with them. They work in close partnership with the class teacher to provide support and challenge where needed.

In addition to our twelve class teachers, we employ additional teaching staff to work with individuals and groups of children.

Some of our learning support staff work with children for 1:1 interventions as outlined in their provision.

Our sports coach works with all age groups, but provides additional support for those children who need to work on developing their gross motor skills.

School External Partnerships:

Our SEN budget is used to fund the provision outlined above. A full list of our external partners can be found in our contribution to the local offer. We commission additional services using an outcome based approach. This enables us to hold our partners to account and vice versa.

Transition Plans:

Our academic assessment for children and young people with special educational needs is moderated through our cluster of schools and neighbouring partners. Samples of children's work and progress are shared and discussed. This is an opportunity to share good practise.

This year, we worked with nurseries and families to welcome 15 children with Special Educational Needs or Disabilities 4 of these with EHCP and we supported 19 children transition to the next phase in education – Key Stage 2

Transition can include:

- An Induction day to enable all Reception children to visit school and meet all the staff along with their families.
- A further weekday meeting where children and their parents/carers met their child's class teacher and Learning Support Assistants.
- Our SENCO visited the children in their nurseries. They met with key staff to ensure we had a good understanding of the children's needs.
- A bespoke transition package provided for those children who needed additional support to that which was on offer universally.
- Joint meetings held for children and families with our Educational Psychologist where appropriate.
- Once the children had started school, parents/carers were invited in to meet with their child's class teacher for a pupil profile meeting.
- Throughout the induction process, the SENCO and Learning Mentor were available for advice and support. The SENCO collected contact details from those parents/carers who had concerns and she telephoned each one to have a confidential conversation. This ensured that all children were well supported throughout their transition into school.
- From Year 2, most of our children transfer to St. Paul's Junior School. There is a comprehensive transition programme. The children participate in joint activities throughout the year e.g. watching Y5 Nativity, visiting Y3 classrooms, meeting Junior School staff, attending a Junior School Assembly, lessons with KS2 staff and children, playtime on the Junior yard etc. In addition to this, those children who needed extra support during transition; made extra visits both formally and informally, were involved in making bespoke transition booklets and videos, Year 2 invited to have lunch in the Junior school hall.

Children and families who need a bespoke transition plan are supported on a needs led basis and this is agreed through working together to ensure success.

Complaints:

Our full complaints procedure can be found on our school website. Please see the following bullet points for an outline of the procedure:

- If you have a concern, speak to your child's class teacher.
- If the issue is not resolved speak to the Year Head. (For children with SEN speak to the SENCO)
- If the issue is still not resolved speak to the Head Teacher.
- If you are not happy with the Head Teacher's response, put your concern in writing to the Chair of Governors.

This year we have had no complaints regarding SEN that needed to be dealt with through the formal procedures. We encourage parents/carers to come into school to speak to staff as soon as they have a concern, this can be addressed immediately before a situation escalates. We have found that this approach, together with clear communication is the most effective way to address any concerns, including those to do with SEN.

Our most recent OFSTED said:

This is a school where everyone feels included.....leaders and staff are committed to all pupils achieving their very best. They are quick to notice and help if a pupil is struggling. The school supports pupils with special educational needs and/ or disabilities (SEND) extremely well.

Further Development:

Our strategic plans for developing and enhancing SEN provision in our school next year include:

- Based on their individual starting point children identified as having a SEND will make progress in Reading, Writing and Maths. In other areas of the curriculum and in relation to their identified primary area of need.
- Children identified with Social, Emotional and Mental Health will have their needs met through consistent approaches and strategies thereby improving their wellbeing.
- Continue to develop co-production of one page/play plans to promote involvement in supporting collaboration and parental engagement to fully support the children to make progress both academically and in social and emotional development.
- Support the effective identification of children's barriers to learning and additional needs, internally and through external support.

- Explore 'Capacity building' using staff skills and interests.
- Ensure pupils identified as SEN Support are represented in specific groups e.g. School Council, Teams for competitions and Enterprise group etc.
- Continue our understanding of Trauma and Attachment and how we can support, children, families, the school community and our local community.

In preparing this report we have included staff, parents/carers and children through discussion and consultation.

Relevant school policies underpinning this SEN Information Report include:

SEN&D Policy, Equal Opportunities Policy, Behaviour & Discipline Policy, Care & Control Policy, Safeguarding Policy, Accessibility Plan, All curriculum policies, Equality objectives.

Legislative Acts taken into account when compiling this report include:

Children & Families Act 2014, Equality Act 2010, Mental Capacity Act 2005, SEN & D Code of Practice 2015

Date completed: October 2022
